Request for Water Budget Review

Residential

Single Family, Multi Family, Mobile Home Parks

Monthly water budgets for residential accounts are customized based on the number of full-time occupants in the home for indoor needs (the default is 4 occupants, or 8 CCFs), and weather factors and the amount of landscape area served for outdoor needs. Refer to the criteria below to determine if your account is eligible for a water budget increase. If you have submitted a request previously and there are no changes to the property, your request will not be processed. If the property consists of merged lots, please attach parcel merger documentation. **It is the responsibility of the customer to notify CVWD of any changes that impact water consumption or meter use. Please note: Budget Review findings may result in an increased or decreased monthly water budget. Water budgets are subject to further review at any time.**
