JOB DESCRIPTION

Coachella Valley Water District

Date July 2007

TITLE: Wastewater Reclamation Plant Shift Supervisor

DEPARTMENT: Operations

SECTION: Sanitation

SRN: S15

REPORTING RELATIONSHIP:

Reports to: Wastewater Reclamation Plant Chief Operator

Supervises the following positions: Wastewater Treatment Plant Operators I, II, III, IV and Operators in Training.

DEFINITION: Under general direction, performs the most difficult operational and maintenance work at the District’s Grade V rated, 7-day, 24-hour staffed Wastewater Reclamation Plant. Supervises a shift and has supervisory responsibility for the reclamation plant. Performs related duties as required.

ESSENTIAL FUNCTIONS:

1. Supervises the day to day operation and maintenance of the District’s Wastewater Reclamation plants. Inspects work in progress to assure quality completion and within time and cost constraints. Provides feedback and suggestions for improvement when necessary.

2. Schedules operations and maintenance work and insures that materials and equipment are available for operators. Reviews laboratory test results and initiates action to be taken.

3. Trains and instructs new employees on operational and safety procedures using established district policy and guidelines.

4. Keeps accurate records and reports. Makes oral and written reports of work performed. Inputs data into a computer.

5. Provides assistance to the Wastewater Reclamation Plant Supervisor in planning, coordinating and scheduling the overall plant operation.

6. Responds to emergency situations, including when off duty.

7. Evaluates employees on job performance. Follows established counseling procedures. Documents disciplinary action when necessary.

8. Confers daily with Wastewater Reclamation Plant Supervisor on work performed or any potential problems.

9. May act as Wastewater Reclamation Plant Supervisor in their absence.
JOB DESCRIPTION

Shift Supervisor – Page 2

MINIMUM QUALIFICATIONS:

License or Certificates: Valid California Operators license issued by the State Department of Motor Vehicles. Department of Motor Vehicles driving record may influence employment or classification.

AND

Possession of a Grade IV Wastewater Treatment Plant Operator certification issued by the California State Water Resources Control Board, as issued through procedures established by the Board.

Failure to comply with certification requirements may influence employment or classification.

Education and Experience: High School Diploma or Equivalent is required. College coursework in engineering, management or supervision is preferred. Any combination of training and experience which would likely provide the required knowledge and abilities is qualifying. A typical way to obtain the required knowledge and abilities would be to have four years experience in wastewater treatment plant operation with at least one year comparable to that of a Wastewater Reclamation Plant Operator IV in the Coachella Valley Water District.

Knowledge of: -Administration and operation of a Water reclamation plant and laboratory.
-Operation of pumps, motors, and related equipment.
-Proper methods of lubricating, repairing and maintaining hydraulic and electrical equipment.
-Principles of training and supervision.
-Safe working practices.
-Principles of budgetary planning and control of expenditures.
-District policies and procedures.

Abilities: -Efficiently plan, organize and supervise the assigned group of workers.
-Delegate responsibilities and schedule work both on short and long-term basis.
-Demonstrates positive leadership skills and abilities.
-Communicate effectively using oral and written instruction.
-Analyze work problems and identify solutions which will facilitate the completion of assignments.
-Prepare and maintain accurate records and reports.
-Train, develop and evaluate assigned workers.
-Prepare accurate cost estimates and budgets.
-Use professional customer service skills when working with the public.

-Work cooperatively with others.
