

\$100 High-Efficiency Toilet Rebate Program!

Coachella Valley Water District is encouraging residents to continue indoor water conservation efforts. CVWD is offering a rebate up to \$100 for replacing your old, inefficient toilet!

Program Details!

- All district customers who are homeowners are eligible, with a limit of one toilet per household.
- Old toilets must be manufactured before 1992, and consume more than 3 gallons per flush.
- The customer is responsible for installing the new toilet, and must provide the district with the sales receipt for the new toilet. Old toilets will be recycled. (Speak to a CVWD representative for details)
- When purchasing a new, efficient toilet, look for the WaterSense label.

Did you know?

- Toilets are the main source of water use in the home, accounting for nearly 30% of indoor water consumption.
- If all American homes replaced their inefficient toilets with WaterSense toilets, we would save nearly 640 billion gallons of water per year, equal to more than two weeks of flow over Niagara Falls!

How **YOU** can participate!

Don't be left out. Limited rebates available. Visit our website to download the application and get more details.
